

# Dia de los Muertos (25 points)

## Remembering Our Loved Ones through Art or Writing

**Dia de los Muertos is a rich time of remembering family members and others who have passed away, through displaying pictures, eating foods that person liked, and other visual offerings.**

**For this option, draw a picture or make a piece of art (in your own style) to remember someone (or a pet) who has passed away.** Some art ideas include painting a rock, making a collage, or making a commemorative display. (See samples in assignment.) Please include the person/pets name in your piece. You are welcome to share next week, if you wish. I will scroll through work and let me know if you would like to share!

**If you prefer, you may also write about that person.** Please tell me about who this person is in relation to you, and why they are special to you. Include a photo if you are able.
